What's New in Version 2.6.2

This section lists new software feature and resolved issues in Version 2.6.2.

New Software Feature

- ❑ Daylight Saving Time (DST) function

This release now supports the configuration of DST.

Resolved Issues

- ❑ Web Interface: The Port Settings web page for Switch Storm Detection displayed default values even after the values were changed.

This issue is resolved in this release. The Port Settings web page displays the current configuration correctly.

- ❑ SNMP Traps: An SNMP manager could not display some SNMP traps of the AT-GS900M series switch correctly.

This issue is resolved in this release. SNMP traps are displayed correctly on an SNMP manager.

Note

The latest MIB file must be compiled into the SNMP manager for this fix to take effect.
